**Estimated Ruble/Dollar Ratios\*  
for Electronics Production, in the USSR,  
by Sector**

	<u>1955</u>	<u>1957</u>
Total Electronics industry	7/1	6/1
of which:		
Military electronics	6/1	5.5/1
Consumer electronics	13/1	11/1
Civil communication and Industrial electronics	6/1	5.5/1

\*The calculations used in constructing these estimates are based on the Soviet product mix.

These ratios were developed from fragmentary data for the purpose of comparing the outputs of electronics in the USSR and the US and are to be considered tentative.
